MALAYSIA**

Co-Organised by Medical Education Training Academy, Perdana University

Supported by Social Security Organisation (SOCSO)

Tuesday, 8 August 2017

Auditorium, Block B, Perdana University, Serdang, Selangor

Symposium - Occupational Health & Safety at Healthcare Facilities

In the quest to provide excellent health care services to our patients, healthcare professionals stumble across numerous hazards and risks that may exist in our daily activities at the health care facilities. Healthcare professionals quite often brush aside the health and safety issues lurking at our doorsteps. The challenges faced by healthcare professionals are numerous; ranging from biological, chemical, physical, ergonomic and psychological hazards. It is in the backdrop of all these challenges, the impetus to organize this technical update is organized to handle the practical aspects of occupational health and safety issues for healthcare professionals.

Objectives

- Describe the various health and safety issues at the healthcare facilities.
- Describe the preventive measures to overcome Health and Safety matters.
- Discuss the legislations (Regulations and Guidelines) on Health and Safety pertaining to the subject matter.

Who should attend the course?

Occupational Health Physicians, Occupational Health Doctors, Medical Specialists, Medical Practitioners, Occupational Health Nurses, Assistant Medical Officers, Safety and Health Officers and Assistant Environmental Health Officers.

Continuing Professional Development (CPD) Points

Doctors – 3 Malaysian Medical Council (MMC) CPD points.

24 Department of Occupational Safety and Health (DOSH) CPD points.
