Technical Update (TU48)
Occupational Lung Diseases: A Review of Pneumoconiosis
8 October 2022 | 8.30 am - 5.15 pm
Venue: Microsoft Teams (Virtual Session)

INTRODUCTION & OBJECTIVES

Pneumoconiosis refers to a spectrum of pulmonary diseases caused by inhalation of mineral dust, usually while working in a high-risk, mineral-related industry.

This technical update aims to review the epidemiology, safeguard procedures, diagnosis, and treatment of pneumoconiosis, and summarizes recent research advances and future research prospects.

WHO SHOULD ATTEND THE COURSE?

Occupational Health Physicians, Public Health Physicians, Occupational Health Doctors, Medical Specialists, Medical Practitioners, Occupational Health Nurses, Assistant Medical Officers and Safety & Health Officers, and Assistant Environmental Health Officers.
