and Environmental
Medicine Malaysia

Medical Surveillance Workshop
31ST JULY 2022 | 8.00 AM - 5.00 PM
Venue: TBA, Kuala Lumpur (Hybrid Session)

INTRODUCTION & OBJECTIVES

Medical surveillance is an important part of health risk management which involves collecting and using information about workers' health, in relation to the substances they use. It requires a systematic approach for the early detection of disease and follow up action to prevent disease progression. It is also essential to prevent further exposure to other workers.

This workshop will consist of interactive lectures and case discussion sessions.

By the end of this workshop, participants will be able to:

- i. Discuss the fundamentals of medical surveillance.
- ii. Understand steps in conducting medical surveillance.
- iii. Demonstrate important elements in proper medical surveillance reports.

WHO SHOULD ATTEND THE COURSE?

Occupational Health Physicians,
Public Health Physicians,
Occupational Health Doctors,
Approved Medical Examiners (AME),
Medical Specialists, Medical
Practitioners, Occupational Health
Nurses, Assistant Medical Officers and
Safety & Health Officers, and Assistant
Environmental Health Officers.
